Phishing & Security Awareness Training

Guide Star
A Division of CCI Systems

Guide Star's Phishing & Security Awareness Training service helps you avoid the hassle of creating and managing phishing campaigns. We handle the entire program administration and provide you with the results.

Ease of Use

Automatic Reporting

Your progress is tracked and scheduled reports are sent out to administrators.

Quick Training Content

Training content is 5 minutes or less, so you can complete it and get back to your day!

No Account Needed

No need for a new login! Phishing and training is delivered to your inbox!

Key Features

Continuous Campaigns

Training is created to be fully continuous. You will receive training & simulated phishing emails on an ongoing basis to keep your cyber threat skills up to par throughout the year.

User Experience

We will keep you engaged with content that's delivered at the time of need, called *Learning Moments*. It's quick phishing training that makes learning easy and fun. The goal is to help you feel more confident while working online and to provide valuable content on a continuous basis.

Phishing & Security Awareness Training

Why do you need phishing & security awareness training?

Should I click on this email? It's a question you ask yourself multiple times during the day. Our training platform helps raise your SAT intelligence by showing you what you need to know and do to stay on top of your cyber security game!

Phishing

Guide Star delivers fresh, consistent training to you in order to increase your understanding of what to be on the lookout for. After getting phished, we show you what you did, and what you should have done differently in the future to stay safe. It's not about punishment, it's about raising your awareness!

Training

Have questions about password management, device security, and working remotely? Guide Star's got you covered! Training is engaging and fun. Learn about these topics and many more in quick 5 minute training lessons, and then get back to your day!

Content

Training is delivered in various forms. We offer both fully animated and live-action content for SAT to keep you fully engaged. We have over 200+ training videos available so it's always fresh.

Compliance

Compliance is a must these days, so why not make it fun with Guide Star? You need consistent phishing and security training in order to qualify for cyber insurance. Guide Star's continuous platform satisfies the requirements for businesses' cyber insurance needs.
